Office Seating

Designed for office work

Office Seating

KAB Seating is part of the American owned CVG group of companies with operating subsidiaries in the UK, Belgium, Australia, China and the United States of America. The KAB Seating headquarters in Northampton, England employs over 350 people and the facility covers an area of 21,000m². The KAB Seating Work Chair range has been developed as a result of supplying vehicle seats for the transport, construction and agricultural industries.

The characteristics necessary in a good drivers seat are equally as important in the workplace today. Particular attention has been paid to criteria laid down by the British National Back Pain Association when designing the Work Chairs. Back pain is the second biggest cause of

absenteeism in the workplace and in the UK alone 5 million working days are lost annually with a cost to employees estimated at £600 m per year.

If you sit with a fixed posture all day you will inevitably end up with physical aches and pains. You have a responsibility to yourself to move. Movement varies the stress and strains placed on the body. KAB work chairs offer every individual a variety of adjustments to provide frequent posture changes.

ACS Executive

OVERVIEW

The top model of the KAB range is ideal for company executives and entrepreneurs. Available in fabric or leather trim options, the ACS provides superb user comfort. Eight electrically adjustable air bags around the seat and back cushions ensure maximum comfort and focus in busy environments.

The adjustability of this chair also makes it an excellent injury rehabilitation chair.

FEATURES

- Tilt and rocker
- Height adjustable
- Manual Air lumbar
- Suitable for users of up to 200kg
- ACS Lumbar support system: To mould the chair to your body simply press a button and the electrical pump will feed air to support the area of your preference. Press the + symbol to inflate and the - symbol to deflate. A mains charger is supplied to boost the 12v rechargeable battery every 3-4 months (subject to usage).
- Adjustable headrest and armrests

Height Adjustment and Tilt
Rocker Adjustment
Weight adjustment 50-200kg

KAB Air Comfort System (ACS)
To mould the chair simply press the + symbol to inflate and - symbol to deflate. Main charge is supplied to boost the 12v rechargeable battery every 3-4 months (subject to usage)

Executive

OVERVIEW

Ideal for prestige offices, company executives and 24 hour use. Its wide flat cushions also make it ideal for large users.

FEATURES

- Tilt and rocker- The tilt and rocker allows the operator to ease the stresses and strains on their back.
- Height adjustable- the operator can increase the seat height for their own needs
- Manual Air lumbar - the user can inflate the airbag according to their preference.
- Adjustable backrest extension offers additional upper dorsal support.
- Adjustable armrests represent a practical space saving solution.
- Suitable for users of up to 200kg

K4

OVERVIEW

The K-Series modern ergonomic styling and all round comfort make it equally ideal for 24/7 applications such as Control Rooms, Operation Centres as well as General offices.

The cushion tilt and extension feature offer an improved level of comfort for people of different heights.

FEATURES

- Tilt and rocker- The tilt and rocker allows the operator to ease the stresses and strains on their back.
- Height adjustable- the operator can increase the seat height for their own needs
- Manual Air lumbar - the user can inflate the airbag according to their preference.
- Adjustable backrest extension offers additional upper dorsal support.
- Adjustable armrests represent a practical space saving solution.
- Suitable for users of up to 200kg
- Cushion tilt and cushion extension

Director

OVERVIEW

The Director is KAB's number one seller and provides top value for money and maximum reliability. It is a versatile chair, ideal for senior personnel, workstation and heavy duty environments.

FEATURES

- Tilt and rocker - The tilt and rocker allows the operator to ease the stresses and strains on their back.
- Height adjustable - the operator can increase the seat height for their own needs
- Manual Air lumbar - the user can inflate the airbag according to their preference
- Adjustable backrest extension offers additional upper dorsal support.
- Adjustable armrests represent a practical space saving solution.
- Suitable for users of up to 200kg

Navigator

OVERVIEW

The Navigator represents a best value office chair for general office use. Offering lumbar support and adjustable backrest and armrests, the Navigator enables users to personalise the comfort features to their requirements.

FEATURES

- Tilt and rocker- The tilt and rocker allows the operator to ease the stresses and strains on their back.
- Height adjustable- the operator can increase the seat height for their own needs
- Manual Air lumbar - the user can inflate the airbag according to their preference.
- Adjustable backrest extension offers additional upper dorsal support.
- Adjustable armrests represent a practical space saving solution.
- Suitable for users of up to 200kg

Controller

OVERVIEW

A 24 hour chair for primary use in surveillance and control stations. Also ideal for deluxe office environments. The standard version features a robust leather/fabric combination, providing maximum durability and comfort for 24/7 usage.

FEATURES

- Tilt and rocker - The tilt and rocker allows the operator to ease the stresses and strains on their back.
- Height adjustable - the operator can increase the seat height for their own needs

KAB//Seating

Health and Safety

It is important that drivers of work vehicles are fully protected from harmful vibrations. KAB seats help to reduce the effect of these on the human body. Careful seat selection is important and through consultation with KAB Seating's network of Authorised distributors the appropriate seat choice can be made to fit most popular brands.

Installation

Care should be taken to ensure a correct installation is made and the seat suspension movements and adjustments are free from obstructions in the cab area.

Maintenance

KAB Seating provides a full range of service parts to ensure seats can be maintained properly, key wear items such as shock absorbers, seat cushions and air valves should be replaced on a regular basis in accordance with the type of usage, amount of usage and environmental factors.

Regular removal of dust and dirt from the seat and cabin will improve the longevity of the seat.
