# CAPRI Desk Frame Beam Selection

## Beam lengths for:

### 1) Rectangular desk frames up to 2400mm long

### 2) Rectangular desk frames with return

#### Example 2000 X 1000 Desk with 1000 X 600 return

- ① Desk Width = 1000 Beam = 434
- ② Desk Length = 2000 Beam = 1434 (2 off)
- ③ Return Width = 600 Beam = 'U'-hook
- ④ Return Length 1000 Beam = 834
- ⑤ Return and Desk (1000 + 1000) Beam = 834 + 600 = 1434

## Components required per desk frame

|                    | Frames with end legs only | Desk frames with return |
|--------------------|---------------------------|-------------------------|
| End legs (pairs)   | 2                         | 1                       |
| Three Leg set      | -                         | 1                       |
| Beam - desk width  | 2                         | 1                       |
| Beam - desk length | 2                         | 2                       |
| Beam return long   | -                         | 1                       |
| Beam return short  | -                         | 1                       |
| Beam return width  | -                         | 1 or 'U' hook           |
